# Financial Modeling & Excel Mastery

## Program Outline and Learning Objectives:

### Session 1 – Excel Foundations for Finance

- Navigate Excel efficiently using shortcuts and best practices for financial data management.
- Apply key logical and lookup functions (IF, AND, OR, VLOOKUP, INDEX/MATCH) to analyze data.
- Create pivot tables and dynamic summaries for quick insights.
- Use conditional formatting and data validation to improve model accuracy and readability.

### Session 2 – 3-Statement Model Construction

- Understand the components and relationships of the Income Statement, Balance Sheet, and Cash Flow Statement.
- Build integrated financial models by linking the three statements dynamically.

### Session 3 – 3-Statement Model Construction (cont'd)

- Forecast revenue, costs, and expenses using driver-based assumptions.
- Develop a cohesive, functional financial model for business analysis and decision-making.

# Financial Modeling & Excel Mastery

## Program Outline and Learning Objectives:

### Session 4 – Scenario & Sensitivity Analysis

- Use Excel tools like What-if, Goal Seek, and Data Tables for scenario analysis.
- Set up scenario managers with base, upside, and downside cases.
- Perform break-even analysis to evaluate business risks.
- Stress-test financial models to assess robustness and interpret results effectively.
- Automate assumptions for dynamic model updates.

### Session 5 – Dashboards & Visualization

- Select relevant KPIs and design effective finance dashboards.
- Use charts, slicers, and summary tables to visualize data clearly.
- Integrate dashboards within financial models for reporting and presentation purposes.
- Create professional, clean, and user-friendly models ready for stakeholder communication.
- Complete a mini capstone project demonstrating dashboard skills.

# AFM Registration

## ABOUT FINANCIAL MODELING INSTITUTE (FMI)

- FMI is the only financial modeling accreditation body in the world
- FMI's goal is to elevate the discipline of financial modeling to facilitate optimal decision-making
- FMI was founded because of the increased need for finance and accounting professionals to strengthen and demonstrate their financial modeling skills
- FMI offers independent, rigorous online financial modeling accreditations that have been pursued by candidates who work for top employers in more than 120 countries

## WHEN IS THE AFM EXAM OFFERED?

The AFM exam is a rigorous, proctored experiential online 4-hour exam. Public exams are offered 4 times a year.

Upcoming exam dates:

July 26, 2025 | October 25, 2025 | February 21, 2026

# AFM Registration

## ABOUT Advanced Financial Modeler (AFM)

The Advanced Financial Modeler (AFM) Program was developed by the world's leading financial modelers to validate excellence in financial modeling. This rigorous accreditation requires candidates to build a 3-statement financial model from scratch under 4 hours, making AFM the only accreditation that directly assesses real-world financial modeling proficiency. The AFM is highly relevant for professionals and students pursuing careers in investment banking, asset management, private equity, venture capital, credit analysis, and related finance roles. Successful candidates demonstrate expertise in practical financial modeling, apply best practices in model construction, and gain recognition within a global community of accredited financial modelers.

## Pricing and Payment details

As an official accredited training provider, we offer the program at a discounted rate 20% less than the official price.

Send us a message at +20 10 55 800 776 to register, you will get full access to FMI material, community and platform.
